

WHIC: Worship Healing Intercession Conference

Welcome!

It's Always Time to Worship God

Throughout worship tonight, may you enter into the absolute joy of God's presence and experience Him like never before. Simply put, It's All About Him. We believe God's present mandate is to hear His voice and to give Him first place in everything that we do. The heavens are open, and we encourage you to hear what He is saying to you personally, to feel His presence, and to receive 'good things' from Him.

***I Corinthians 14:26 says "When you assemble, each one has a psalm, a teaching, a revelation, a tongue, an interpretation".**

This verse is about Being the Church, not merely attending a meeting. We should all participate with Him and know God as Father, Son and Holy Spirit on a deeper level. With this thought in mind, we function as a prophetic team with various gifts of the Holy Spirit evident among us. How about You?

One of the purposes of this ministry is to facilitate worship in homes ('mini-WHICs') following our example here, and we are seeking like-minded people to catch this vision and to partner with us. If you are seriously interested in becoming a WHIC partner and would like to host a worship experience in your home, please see a Team Member with your Contact Information or email us via the information on this card.

Thank you for coming and Many Blessings as you are going!

*NASV of the Holy Bible, paraphrased.

What You May Experience

Taste-See-Hear-Smell-Feel

"Taste and see that the Lord is Good." Ps 34:8

Healing, Visions, Prophetic Words, Speaking in other Languages, Various Sounds in the atmosphere not created by us such as Rumbings, Musical Instruments, etc.; Physical Manifestations such as Shaking, Jerking, Breezes, Wind, Tingling, Warmth or Heat, Burning Sensation, Falling Over, Weeping, Laughter, Fragrances and More.

Why? First of all, the Scripture is full of God's demonstrative nature. He uses the senses that He created in us because He wants for each person to know Him intimately, and to know how very much he or she is loved. In addition, the human body cannot contain His powerful touch and may react physically to the power of His presence.
